CIRANO renames its experimental economics laboratory in honor of Claude Montmarquette

Claude Montmarquette, Professor Emeritus at Université de Montréal, researcher and Fellow of CIRANO, was one of

CIRANO renames its experimental economics laboratory in honor of Claude Montmarquette

the pioneers of experimental and behavioural economics in Canada. His work had a significant impact in the fields of economics and public policy. He was one of the first economists in Quebec to understand and exploit the potential of behavioral and axperimental economics for the design and evaluation of public policies, particularly in the fields of education, public finance and labor economics. In 2000, he created within CIRANO, the first experimental economics laboratory in Quebec.

In order to pay tribute to him and to perpetuate his legacy, the CIRANO laboratory was officially renamed in his honor, becoming the “**Laboratoire d'économie expérimentale Claude Montmarquette.**”

[Huan Xie](#), full professor at Concordia University and [Sabine Kröger](#), full professor at Laval University are the researchers in charge of the Claude Montmarquette Experimental Economics Laboratory. They supervise and animate the activities that take place throughout the year.

SEVERAL ACTIVITIES ORGANIZED IN TRIBUTE TO CLAUDE MONTMARQUETTE

Exclusive workshop for CIRANO partners on behavioral and experimental economics

SEVERAL ACTIVITIES ORGANIZED IN TRIBUTE TO CLAUDE MONTMARQUETTE

The objective of the workshop, which was exclusive to the partners on behavioural and experimental economics, was to introduce this methodology, its scope and how it allows for a better understanding of the determinants of certain decisions in the context of risk and uncertainty. Several CIRANO researchers, including Sabine Kröger, professor at Laval University, Pierre-Carl Michaud, professor at HEC Montréal, Maurice Doyon, professor at Université Laval, Brahim Bourdarbat, professor at Université de Montréal and Pierre-Olivier Pineau, professor at HEC Montréal, presented their most recent work in experimental and behavioural economics.

Academic workshop on behavioral and experimental economics

On April 20 and 21, 2023, CIRANO organized a workshop on Behavioral and Experimental Economics for Innovative Policymaking to honor one of the pioneers of experimental and behavioral economics in Canada, Claude Montmarquette. This scientific workshop on behavioral economics and public policy aimed to bring together his co-authors, friends, and international researchers to share their latest research and insights on behavioral and experimental economics.

CIRANO NEWS

CIRANO study on overdiagnosis of ADHD in Quebec

On April 25, 2023, a round table was held at CIRANO bringing together specialists in the fields of economics, sociology and psycho-education to discuss the results of a CIRANO study that unequivocally documents the phenomenon of overdiagnosis of ADHD and sounds the alarm on this extremely worrying issue. In the report «Surdiagnostic du TDAH au Québec : Impact de l'âge d'entrée à l'école, différences régionales et coûts sociaux et économiques», Catherine Haeck and Philip Merrigan, both Professors at ESG UQAM and CIRANO Researchers and Fellows, and their co-authors demonstrate the magnitude of the phenomenon of overdiagnosis and overtreatment of
